

Coffins & Caskets

A selection from our range

In life we all have individual tastes so why should a coffin choice be any less individual?

Our wide range has been selected to ensure there are styles to suit everyone's personality. This booklet shows only a small selection of our range.

We understand that every decision around a funeral can be difficult. If you aren't sure where to begin, our team are always available to guide you.

Certifications

Coffins from our supplier are made under certain schemes or have been certified. This is what they mean:

The Forest Stewardship Council (FSC) is an international non-profit that promotes responsible management of forests.

Traidcraft changes people's lives through fair trade, saving vanishing traditional skills from extinction, and celebrating a world of culture.

Greener Goodbyes is a service designed to make your funeral greener by making a positive difference to the environment.

When a coffin is sold with the Tree Tribute merit, a sapling tree will be planted. It can also be supplied for you to plant locally.

For every coffin sold with Carbon Rebalance, £5 is donated to Groundwork's Green Doctor initiative. This helps balance out the carbon emissions associated with the coffin.

Groundwork is a charity transforming lives in the UK's most disadvantaged communities through training, job creation, and various energy saving initiatives.
